CERAMICA CLEOPATRA GROUP

An international top player in the ceramic industry

Ceramica Cleopatra Group was the first in Egypt to open a modern ceramic manufacturing factory, in 1979. Since then, it has played an influential role becoming **one of the largest private corporations in Egypt and in the Middle East**, and one of the world's largest ceramics, porcelain and sanitary ware manufacturer. Its integrated industrial complex of 17 plants in North West Gulf of Suez and Tenth of Ramadan City employees 26 thousand among engineers, technicians and workers.
The company exports reach more then 100 countries worldwide.

Based in Tenth of Ramadan City, Ceramica Cleopatra Group is an Egyptian pioneer in ceramic and porcelain wall and floor tiles, sanitary ware and bath sets manufacturing.

State-of-the-art technologies support the company reputation for quality and flair, and its philosophy to treat each of its products as a work of art.

With more than one million Italian-inspired designs in different sizes, Ceramica Cleopatra Group caters to a wide variety of tastes and styles and is able to design, manufacture and produce personalized projects and collections. Several local and international distributors work every day to sell the products all over the world: **Ceramica Cleopatra Group exports to more than 100 countries worldwide.**

The company reputation for quality and durability has ensured a steady international growth and a strong and stable customer satisfaction.

Why choose **ceramic?**

Because it’s a natural, safe material that is suitable for any application. It does not release harmful substances, it does not burn and it’s sustainable, recyclable, resistant, durable and easy to install.

Safe
Ceramic is a safe, natural material that originates from the earth.
It does not contain plastic and is completely recyclable.

Versatile
With its infinite variety of sizes and surfaces, ceramic is suitable for any application, whether floors or walls, countertops or tables.

Long-lasting
Ceramic is a durable and hard-wearing material. It’s easy to clean and always looks as good as new.

Hygienic
Ceramic is one of the most hygienic material. It’s odourless and easy to clean using any household detergent.

It does not burn
It does not burn and in the event of fire does not release substances that are harmful to people or the environment.

Resistant
Ceramic is a strong material that does not change shape or freeze and is resistant to even the most aggressive chemical detergents.

Stable
A ceramic floor is practical, stable and can be easily skillfully installed in shops, restaurants, offices and surfaces of all kinds.

Environment-friendly
Ceramic is a sustainable material that is healthy and environment-friendly because it is produced in full compliance with European and American standards.

Icon definition

THICKNESS
Most floor tiles have a thickness of about 9cm to 12 cm. When comparing the ceramic wall tile with ceramic floor tiles' thickness, the ones made for floors are generally thicker than wall tiles.

RECTIFIED
Manufacturing process assuring each surface the same size and shape desired. The tile is cut after firing in order to reduce the joints, allowing the creation of continuous surfaces and thinner joints.

NOMINAL SIZE
A term used to describe the approximate thickness or facial size of tile for general reference.

FINISH
The visual appearance of a tile surface. This may be polished, glazed or unglazed, textured, embossed, matte.

BREAKING LOAD
The amount of weight a tile can hold up under a constant load.

PORCELAIN STONEWARE
An innovative and extremely versatile material. Porcelain tiles are fine-grained and smooth, very much harder and denser than other tile products.

PANDUAL SKIDE RESISTANCE
Tiles with the same durability as regular tiles, but with an extra grip achieved through processing the material surface.
R9 Low static friction
R10 Normal static friction.
R11 Increased static friction.
R12 High static friction

PEI - PEDESTRIAN TRAFFIC
Porcelain Enamel Institute rating scale which expresses the amount of foot traffic a surface can handle, to determine its hardness.
PEI 1 Light domestic use
PEI 2 Moderate domestic traffic
PEI 3 All domestic use
PEI 4 Suitable for domestic and public use (hall, restaurants and supermarkets.)
PEI 5 Tiles suitable for all types of use
